

THE LIFT POLITICS CHALLENGE

I will strive to conduct my campaigning, fundraising, and time as an elected representative in accordance with the LIFT Guiding Principles.

Guiding Principles

1. We strive to act with malice towards none and dignity for all.
2. As George Washington believed, those who seek to divide are not patriots.
3. Honestly engaging with opposing views broadens understanding and sharpens ideas.
4. Solutions born from diverse perspectives and compromise are most likely to produce fair outcomes for all.
5. Party is a mechanism to fight for principles not power.
6. If the truth is not good enough then neither is our cause.
7. We hold all sides to an equally high standard.
8. No honest solutions can be found in degrading or mischaracterizing the people or ideas involved.
9. Who we become in our fight is just as important as whether or not we win the battle.
10. We motivate through raising up, not through fear, hatred, or anger.
